

TROGS[®]

NFTrogs WHITEPAPER / ROADMAP

We appreciate your interest in the NFTrogs Art Collections,

Our team has worked hard to provide the readers with our extensive vision of our work through intelligible and detailed information on our NFT plans. NFTrogs mixes the new world excitement of NFTs with some iconic cannabis comix art.

We have used the industry standard ERC contract system that guarantees the collectability of the NFTrogs beyond the minting period.

What is an NFT?

Primarily known as NFT, “Non-Fungible Token” is a unique non-fungible asset that can’t be split. NFT can be connected to real-world objects

We’re excited to be at the cutting edge of the NFT industry by offering NFTs attached to real world keepsakes, this mean the collectors of NFTrogs will become some of the first people to have collectible digital TROG artwork. So by buying the NFT you will have a real world mounted card of the NFT, which is also saved on the blockchain, and potentially can be used in the metaverse if they join up.

NFTrogs consists of artwork by world renowned cannabis artist TROG, all hand drawn, characters and wasted canvas artworks.

“I don’t want this NFT series to just pop up and fade away, i want these artworks to still be going strong and growing thru years to come, I want this series to evolve and bring the holders of each NFT along for that, my career has already passed 20 years and this is my first real digital collection, so im excited to see where it ends up” - TROG

The first part we are concentrating on is the “TROG” character series, which is going to be 200 hand drawn versions of TROG, which will be available on the Ethereum Blockchain.

Out of the first 200 - there is going to be “2 Studio Wilds” - a “Studio Wild” grants the holder access to work on an offshoot series of 10 bonus NFTs directly with TROG and the team behind NFTrogs. The holder of the studio wilds will retain a percentage of the sales of the bonus NFTs.

The total supply will also be graded into 4 categories for collectible resale.

If you are a NFTrogs holder, you can be put in direct contact to TROG to discuss any of your art / design needs for your canna based business, given the wait time to get logos has sometimes been 6 month, this is a huge asset to hold.

- Utilities include holders only merch drops
- Holders only real world NFT collector card drop 1/1
- Access to ongoing holders only canvas artwork series
 - Exclusive NFT airdrops
- Exclusive holders only shopping discounts for WWW.ARTOFTROG.COM
